I. PLANNING

A. CINCPAC-JCS Actions

On 9 September, CINCPAC queried CINCPACFLT views regarding the resumption of the Desoto Patrol in the Gulf of Tonkin. CINCPACFLT responded with a proposed orbit for a five day, two destroyer patrol. CINCPAC forwarded this proposal to JCS recommending a three day patrol with an orbit no closer than 20 miles from the North Vietnamese coastline or 12 miles from the offshore islands. The JCS concurrence, to CINCPAC also established that in case of attack, both ships and aircraft were to fire upon the target(s) with intent to destroy; ships were authorized to pursue attacker(s) to within three miles of shore; aircraft were authorized hot pursuit of any target(s) they could firmly identify as having attacked the Desoto. Aircraft pursuits were authorized to overfly North Vietnam, Hainan Island and the Chinese Communist mainland, if necessary. The patrol was originally scheduled to commence on 14 September but was twice postponed due to adverse weather and the political crisis in South Vietnam and did not proceed from its first point (17-10N 107-43E) until 162336Z. The patrol was conducted by the USS Morton and the USS Edwards.

B. NSA Actions

On 11 September DIRNAVSECGRUPAC informed DIRNSA of plans for an intercept team, USN-467P, to be aboard the USS Morton. DIRNSA was also advised of those naval command which were to be included as addressees for SIGINT reports containing reactions to or reflections of the patrol.

Upon receipt of DIRNAVSECGRU's 11 September message, the Chief, B205 called a meeting of appropriate B2 and P2 personnel to discuss those actions which were necessary to ensure maximum SIGINT support to the Desoto patrol as well as to determine the desired SIGINT tasking. It was agreed that the problem would be approached in two phases: first, to provide SIGINT support to a routine patrol and second, to make preparations to permit prompt SIGINT reaction in the event of hostile actions against the patrol.

In the first phase, messages were released on 11 September alerting the appropriate field stations to the forthcoming patrol. The messages outlined priority intercept targets and provided additional routine technical support to such tasking. In addition, B2 drafted a message for P2 release to the JCS requesting action to provide Queen Bee Delta collection from an orbit in the Gulf of Tonkin during the

Desoto patrol. JCS concurred in this proposal. [redacted] and [redacted] programs were reviewed and it was concluded that all planning information concerning these programs was already being made available to DIRNSA.

DIRNSA requested that CINCPAC provide appropriate field stations with periodic position reports of the Desoto patrol in an effort to enhance SIGINT analytic efforts. However, CINCPAC was unable to comply in that the patrol was to be under EMCOM, a mode of radio silence.

In the second phase of DIRNSA support plans, in which the patrol was to be regarded as a potential target of hostile DRV or [redacted] reactions, a 12 September message was sent to field stations reviewing the intercept/forwarding/reporting problems encountered during the 2/4 August Gulf incident. In this, B205 advised of operational and reporting procedures to be followed and also informed field stations of the latest available information on the track the Desoto patrol was to follow.

C. In-House Actions

In anticipation of a possible incident in the Gulf of Tonkin, B205 took numerous in-house actions in an effort to attain a posture of optimum preparedness. All technical, reporting and administrative data was assembled in a central location and the B2 Conference Room was readied for immediate conversion into an operational watch area. A stand-by crew, including analytic personnel, was placed on 24 hour alert and all appropriate personnel were briefed as to their duties should the necessity arise. Messages were prepared to cover any SIGINT Readiness condition that might be called--leaving only the date to be filled in, a signature, and the concurrence of ADP before release. B205 instituted a skeleton watch during the critical hours of the first evening of the patrol (16/17 September, local).

II. NORTH VIETNAMESE REACTIONS

A. Summary/Background

The patrol vessels arrived at point Alfa (17-10N 107-43E) at 162336Z (morning of 17 September, Gulf of Tonkin time) and then proceeded on a northerly track along the DRV coast. The vessels continued on course without incident but under sporadic tracking surveillance by shorebased DRV radar elements and/or visual observation by DRV naval/shipping/fishing entities. On the morning of

~~TOP SECRET DINAR~~

18 September, the patrol returned on track in the vicinity of point Delta (18-42N 107- E) and continued along their northerly track until the evening when the vessels retired some 50 mile seaward to their night steaming area. Later that evening (181220Z), in the vicinity of 18-35N 107-50E and again at 181337Z near 18-30N 106-52N, the patrol vessels took unidentified radar targets under fire. Following the shelling and early on the morning of 19 September the patrol vessels and fighter aircraft searched the area unsuccessfully for debris or other evidence of the previous night's action prior to continuing their patrol from approximately point Echo (19-23N 106-10E) southward to point Alfa.

In response to urgent JCS/CINCPAC queries the vessels reported their fire had been prompted by five radar targets which were closing despite warning shots. No visual observation of the "targets" was made, nor was there any evidence that any rounds or torpedoes were expended against the U.S. vessels. Again based on radar surveillance the U.S. vessels claimed hits on three of the targets.

B. Surveillance

The Desoto vessels arrived at point Alfa (17-10N 107-43E) at 162336Z and then proceeded on a northerly track along the DRV coast. The initial reflection of DRV awareness of the presence of U.S. ships in the Gulf of Tonkin was at 170045Z when Northern Fleet Headquarters, Port Wallut, reported that the U.S. Seventh Fleet's intentions were to move into the area close to the shore for the purpose of provoking the DRV.

The Desoto vessels came under radar surveillance at least as early as 170300Z. DRV Naval Radar tracking entities were noted at a moderately increased state of readiness during the period 17-19 September with some 327 messages noted, approximately 98 of which reflected the Desoto mission. Although two messages from Haiphong gave orders to "report continuously" on the enemy destroyers, tracking was both sporadic and erratic when compared to activity noted during the August patrol. Comparison of the patrol's known position with available tracking indicates that although discrepancies up to ten nautical miles were observed in some reports, overall, the September trackings appear to be somewhat more accurate than the August patrol.

Available messages indicate that throughout the patrol DRV naval entities were keenly aware and fairly accurately informed of the presence of the Desoto vessels. Fearing a South

NSA25X3

~~TOP SECRET DINAR~~

Vietnamese incursion and expecting a U.S. provocation, the DRV Navy was geared to repulse the "intruders". To this end, DRV Naval authorities continually admonished subordinate units to effect a high level of defensive preparedness, to institute alert condition one, and to camouflage their locations. There were no firm SIGINT reflections of hostile intent such as were observed during the August patrol.

III. SIGINT SUPPORT

NSA25X3

A. Readiness Actions Implemented

Approximately one hour and fifteen minutes after the USS Morton opened fire on closing targets, and approximately thirty minutes subsequent to B205's receipt of the CRITIC from COMNAVFORJAPAN, DIRNSA declared SIGINT READINESS BRAVO "OUTBOARD" at NSA and appropriate field stations covering the North Vietnamese problem. Within this same thirty minute span, the B2 operations center was fully operational.

During the early morning hours of 19 September (local), SIGINT reflected the movement of at least six jet fighters and a transport aircraft from [REDACTED]

[REDACTED] In consideration of this and other unusual [REDACTED] communications activity, DIRNSA extended SIGINT READINESS BRAVO "OUTBOARD" to additional field stations [REDACTED]

Upon the termination of the patrol and when it became apparent that there were no firm indications of DRV/CHICOM actions, DIRNSA cancelled SIGINT READINESS BRAVO at 1805Z on 20 September.

B. Washington Area Consumer Support

Early in the morning on 18 September, prior to the USS Morton's shelling, DIA levied a telephonic requirement on B2 for a summary of DRV reactions to the Desoto patrol on 16-17 September. This information had been requested by General Wheeler. DIA requested response by 1500 local time. Despite the insuing activity, B2 met this requirement by both cable and SIGINT product prior to 1700 hours. The information was updated, per DIA request, the following morning.

At approximately 1045 on 18 September, a request was received from the Secretary of Defense for elaboration of certain SIGINT information relating to the incident. The Chief, B205 was

immediately dispatched to the Pentagon where he briefed the Director, DIA and his staff and later assisted in drafting a memorandum for the Secretary of Defense. From there he went to CIA where he briefed General Carter on his activities at the Pentagon.

Throughout the period of 18-20 September the B2 Operations Center was in almost constant telephone contact with both DIA, JCS, JRC and the SECDEF Watch officer, responding to queries and apprising them of all SIGINT developments as they occurred. All requirements which necessitated written responses were prepared in the most expeditious manner possible and disseminated to the requestor by message or by courier. Where practicable, these responses were immediately followed-up with serialized product to the community.

In addition, throughout 18-20 September B2 maintained senior analysts and linguists on board at all times to monitor field translations, technical data, etc. with an eye toward accuracy and presentation and to ensure further dissemination to appropriate consumers if required.

The prompt NSA reaction that this effort permitted is well evidenced in the following example. On 20 September, USN-27 issued a CRITIC to the effect that an attack by DRV naval elements upon the Desoto patrol was possible that evening. Within two hours of the time of intercept, the B2 Operations Center had received the relevant technical data, retranslated and interpreted it and issued an amplifying product to the intelligence community which clarified the original CRITIC pointing out that the DRV concern pointed equally as well to the possibility of an attack on South Vietnamese "raiders" as it did to an attack on the Desoto patrol.

IV. OPERATIONAL DEVELOPMENTS ENCOUNTERED

A. Communications Outages

SIGINT Readiness Bravo Outboard was implemented during a period when CRITICOM circuits were overloaded and a backlog existed at several stations. The additional load of high precedence traffic, equipment failure, and poor atmospheric conditions resulted in unusually difficult communications problems.

Throughout the period of the Readiness, B2 was plagued with non-receipt of or excessive delays in the arrival of badly needed product and technical material. Washington Consumers were also

~~TOP SECRET DINAR~~

concerned about the lack of timely SIGINT input. In some instances IMMEDIATE items took as long as 27 hours to reach Washington and FLASH items took 6-7 hours.

In exploring the problem, B2 contacted the T1 Duty Officer and was informed of the general deterioration of communications. With the details then available, B2 was in a position to advise local consumers on the matter on a continuing basis. In addition, B2 brought the situation to the attention of the Director and ADP. Subsequent action resulted in the declaration of a "minimize" condition in an attempt to alleviate the situation.

B. Distribution of USN-467P Input

The manner in which USN-467P reported significant intelligence gleaned from their intercept has caused considerable concern. The problem lies in the fact that while the platform had no SIGINT reporting responsibilities per se it did forward certain intelligence items to selected consumers, i. e., DIA, JCS and Naval commands. While the items reported were relevant to the platform's role of direct support of the patrol vessel, and were therefore of direct interest to the addressees selected, it prompted CIA and the White House to form the opinion that DIA was getting information they weren't.

Fortunately the case in point was explainable because of the communications difficulties, however, future platforms must have more definitive reporting instructions and the necessary mechanics clearly established to avoid any further instances of this nature.

INTRODUCTION

The following report presents a chronological summary of the events surrounding the 18-20 September Desoto Patrol incident involving two U. S. destroyers, the U.S.S. Edwards and the U.S.S. Morton, on patrol in the Gulf of Tonkin.

Desoto Patrols, accomplished to assert the right of U. S. vessels to patrol in international waters and for the purpose of collecting intelligence, were established in April 1962 and have operated since in waters off the China and North Vietnam coastlines.

In this instance, the U.S.S. Morton had a SIGINT collection team aboard designated USN-467P. The team included one manual Morse position, one radio-telephone position, and one combined manual Morse/radio-telephone [redacted] position. The personnel complement included both Chinese and Vietnamese linguists. The team's primary mission was to provide immediate support to the patrol itself, and secondarily to intercept [redacted] DRV communications in accordance with tasking provided by DIRNSA.

NSA25X3

DIRNSA plans for support of the Desoto Patrol were in two phases. One phase dealt with the patrol under routine circumstances, provided relevant SIGINT tasking instructions and necessary procedures for continued technical support for the period when the patrol would be in progress. The other phase regarded the patrol as a potential target for hostile North Vietnamese or [redacted] actions. To cover that contingency, instructions were issued which specified the intercept, forwarding and reporting procedures to be implemented in the event of an incident.

In reading the following report it may be helpful to bear in mind that messages originated by CTF 77 were from the task force commander of the Seventh Fleet; those messages from the patrol were designated CTG 77.6.6. USN-414T, indicated as the originator on some messages, was a Marine contingent at USM-626J (Phu Bai, South Vietnam) charged, in conjunction with USM-626J, with the collection, processing and reporting of North Vietnamese naval communications. It should also be borne in mind that, aside from the SIGINT information which is as complete as the purpose of this report appeared to require, this report is based solely on that information available to NSA and does not purport to contain all relevant non-SIGINT information.

SUBJECT. POSITION REPORTS FROM DESOTO PATROL

1. OUR SIGINT SUPPORT TO THE DESOTO PATROL ITSELF, AND TO THE INTELLIGENCE COMMUNITY AT LARGE, COULD BE SUBSTANTIALLY ENHANCED BY RECEIPT OF PERIODIC POSITION REPORTS OF DESOTO PATROL VESSELS. IDEAL WOULD BE HOURLY POSITION REPORTS FOR BOTH DESTROYERS. IF SELECTED FIELD STATIONS COULD BE IN RECEIPT SUCH REPORTS ON TIMELY BASIS CORRELATION OF THIS INFORMATION WITH SIGHTING REPORTS PASSED ON VARIOUS NORTH VIETNAMESE COMMUNICATIONS COULD THEN READILY BE MADE. IT WOULD THEN BE POSSIBLE TO KNOW WITH VIRTUAL CERTAINTY THAT COMMUNIST SIGHTINGS, AND INDICATED INTENTION TO COUNTER THE SIGHTED VESSEL, WAS A REFERENCE TO THE DESOTO PATROL

2. AT 170054Z PORT WALLUT REPORTED THE PRESENCE OF THE QTE SEVENTH FLEET UNQTE TO ALL SHIPS AND STATIONS ((A)). ~~SECRET KIMBO~~

THROUGHOUT THE DAY OF 17 SEPTEMBER 1964, DRV NAVY MESSAGES INDICATED THAT THEY WERE AWARE OF THE PRESENCE OF U.S. DESTROYERS IN THE GULF OF TONKIN. THOUGH ONE MESSAGE ON THAT DAY ASKED A NAVAL ELEMENT IF IT HAD RECEIVED ORDERS TO FIGHT, THERE WERE NO FIRST INDICATIONS OF HOSTILE INTENT. MOST MESSAGES ALERTED FLEET ELEMENTS TO THE PRESENCE OF HOSTILE SHIPS AND ADVISED THEM TO GUARD AGAINST POSSIBLE ATTACK.

THE U.S. DESTROYERS BEGAN THE PATROL AT 2336Z, 16 SEPTEMBER. THEY FIRST CAME UNDER RADAR SURVEILLANCE AT 0604Z, 17 SEPTEMBER WHEN AN IDENTIFIED STATION PASSED A TRACKING ORIGINATED BY THE RADAR FACILITY AT VINH SON (17-57N 106-30E). NO FURTHER TRACKINGS WERE OBSERVED UNTIL 0945Z, 17 SEPTEMBER WHEN HON MATT (18-48N 105-58E) BEGAN TO CONTINUOUSLY TRACK THE DESTROYERS THROUGH 1133Z; A SINGLE TRACKING WAS LATER OBSERVED AT 2330Z, VINH SON, WHICH ORIGINATED THE FIRST TRACKING AT 0604Z, 17 SEPTEMBER DID NOT COMMENCE CONTINUOUS TRACKING UNTIL 2116Z, THAT DAY; ITS LAST TRACKING WAS NOTED AT 2227Z.

THE USS MORTON REPORTED THAT IT WAS FIRING ON A CLOSING TARGET AT 1233Z, 18 SEPTEMBER.

FOLLOWING ARE GISTS OF THE MORE SIGNIFICANT MESSAGES WHICH PRECEDED THE ATTACK ON THE U.S. DESTROYERS:

170203Z: PORT WALLUT INFORMED ALL STATIONS AND SHIPS THAT THE SEVENTH FLEET WAS ACTIVE. ALL STATIONS AND SHIPS WERE FURTHER INFORMED THAT HEADQUARTERS REALIZED THAT THE ENEMY COULD ENTER THE GULF AND STEAM CLOSE TO THE SHORELINE THEREBY PROVOKING THE DRV. ALL SHIPS AND STATIONS WERE ORDERED TO GUARD AGAINST A POSSIBLE ENEMY ATTACK FROM THE AIR OR THE SEA AND OTHER

OR CONTRAST, A BRIEF RESUME OF DRV NAVAL COMMUNICATIONS WHICH PRECEDED THE 2 AND 4 AUGUST ATTACK ON THE USS MADDOX IS INCLUDED (SEE PART II). ADDITIONALLY, THE DISPOSITION OF DRV NAVAL VESSELS ON 17 SEP, AS CAN BE DETERMINED IN SIGINT, IS COVERED (SEE PART III).

PART ONE: DRV NAVAL COMMUNICATIONS, 16-18 SEP

DRV NAVAL COMMUNICATIONS FROM 161244Z THROUGH 181844Z INDICATED NO EVIDENCE OF DRV PREPARATIONS TO LAUNCH AN ATTACK AGAINST THE TWO U.S. DESTROYERS ON PATROL IN THE GULF OF TONKIN.

THE PATROL BY MORTON AND EDWARDS COMMENCED AT 162336Z. AT 170054Z VAN HOA (PORT WALLUT) ALERTED ALL STATIONS TO "SEVENTH FLEET" ACTIVITY AND INSTRUCTED THEM TO TAKE PRECAUTIONS AGAINST ENEMY ATTACKS. AT 170418Z TWO ENEMY DESTROYERS WERE REPORTED UNDER SURVEILLANCE AND FROM AT LEAST THIS TIME ONWARD DRV AUTHORITIES APPARENTLY KEPT CLOSE TRACK OF THE PATROL. OVER THE NEXT FEW HOURS NAVAL ELEMENTS AND PATROL BOATS WERE ALERTED TO THE PRESENCE AND MOVEMENTS OF THE PATROL AND TOLD TO TAKE PRECAUTIONARY MEASURES. REFERENCES TO "BATTLE PREPARATION" OR "BATTLE ORDERS" AND "CLASS ONE ((ALERT))" WERE NOTED, BUT IT IS PROBABLE THAT THESE REFERENCES REFLECT SIMPLY "BATTLE STATION" PROCEDURES.

TRACKING CONTINUED THROUGH THE NIGHT AND ON THE MORNING OF 18 SEPTEMBER AN UNIDENTIFIED VESSEL REPORTED VISUAL SIGHTING OF DD 946 ((SIC: USS MORTON IS DD 948 AND DD 950 USS EDWARDS)). AT 181038Z "ALL STATIONS" WERE TOLD THAT THE ENEMY WAS "ADVANCING TO PROVOKE" THE DRV AND ORDERED ACTIONS TO STRENGTHEN ALL AREAS AND "AVOID AGAINST PROVOKING THEM." THE STATIONS WERE ALSO WARNED

AGAINST "RAIDER" ATTACKS AGAINST THE DRV COASTLINE TAKING ADVANTAGE OF THE PRESENCE OF THE US SHIPS.

AT 181233Z THE US SHIPS REPORTED OPENING FIRE ON THREE ENEMY TARGETS WHICH HAD BEEN CLOSING IN ON THEM. (WHILE NO COMINT EVIDENCE OF THE PRESENCE OF THESE THREE BOATS IS AS YET AVAILABLE, IT IS PROBABLE THAT COMMUNICATION AMONG THESE BOATS WOULD HAVE BEEN CONDUCTED BY RADIO-TELEPHONE.

THE FIRST DRV REACTION TO THIS INCIDENT AVAILABLE AT THIS WRITING WAS TRANSMITTED "TO ALL STATIONS" AT 181719Z. IT STATES THAT "AT 1930G (1230Z) 2 US DESTROYERS ((WERE LOCATED)) 40 NM EAST OF HON MATT. IN THE GIANH RIVER WE HEARD GUN FIRE." THIS MESSAGE SPECULATES POSSIBLE ENEMY ACTIONS, SUCH AS ATTACKS ON "OUR MILITARY, POLITICAL AND ECONOMIC TARGETS, MAINLY NAVAL AND AIR DEFENSE," AND ORDERS PREPAREDNESS, ALERTNESS AND MAINTENANCE OF CLOSE COMMUNICATIONS AND REPORTING.

FINAL SECTION OF THREE 2/0/VHN/T16-64 ST 220

PART TWO: DRV NAVAL COMMUNICATIONS PRECEDING DRV ATTACKS OF 2 AND
4 AUGUST ON THE USS MADDOX

THE FOLLOWING IS A RESUME OF DRV NAVAL ACTIVITIES OBSERVED IN
SIGINT WHICH PRECEDED THE ATTACKS ON THE USS MADDOX ON 02 AND 04
AUGUST. THIS REPORT IS DIVIDED INTO TWO PARTS, A AND B, TO
COVER THE FIRST AND SECOND ATTACKS RESPECTIVELY.

A. THE FIRST ATTACK, 02 AUGUST

1. BEGINNING AT 011018Z AUG, DRV NAVAL AND RADAR FACILITIES
BEGAN REPORTING ON POSITION OF WHAT APPEARED TO BE THE DESOTO
PATROL. (2/G11/VHN/R01-64, 011635Z; AND 2/Q/VHN/R27-64,
012152Z).

2. AT 011627Z, A MESSAGE WAS SENT FROM BEN THUY NOTING THAT
IT HAD BEEN "DECIDED" TO FIGHT THE ENEMY TONIGHT-WHEN YOU
RECEIVE DIRECTING ORDER. "2/Q/VHF/R26-64, 011924Z)"

3. AT 011652Z, THE OBSERVATION POST AT HON ME ISLAND AND A PGM BOAT WERE INFORMED OF THE DESOTO PATROL'S POSITION.

(2/Q/VHN/T27-64 012152Z)

4. BETWEEN 012213Z AND 020007Z, INTERCEPTED TRAFFIC INDICATING CONTINUING DRV REPORTING ON THE POSITION OF THE DESOTO PATROL. (2/Q/VHN/R28-64, 020414Z).

5. AT 020612Z, AN UNIDENTIFIED SHORE STATION ORDERED THE T-146 TO "TURN BACK TO THE PATH OF THE ENEMY TO ATTACK." (2/Q/VHN/R29-64, 021232Z).

6. AT APPROXIMATELY 020716Z, USN-27 ISSUED A CRITIC MESSAGE, BASED ON A DRV WHICH INDICATED THAT DRV CRAFT WERE ON CLOSE WITH THE "ENEMY" AND TO USE TORPEDOES.

NSA25X3

7. BETWEEN 020309Z AND 020732Z, DRV NAVAL COMMUNICATIONS CONTINUED TO KEEP THE DESOTO UNDER CLOSE SURVEILLANCE. DURING THIS PERIOD, DRV NAVAL VESSELS WERE APPARENTLY GROUPING TO ATTACK. (2/Q/VHN/R29-64, 021232Z).

8. AT 020807Z, THE MADDOX REPORTED SHE WAS UNDER ATTACK BY THREE DRV PT BOATS.

FOLLOWING THE ACTION ON 02 AUGUST, COMINT REFLECTED THE NORTH VIETNAMESE ENGAGING PRIMARILY IN "MOP-UP" ACTIONS, PRINCIPALLY CONCERNED WITH LOCATING THEIR DAMAGED PT BOATS AND TOWING THEM BACK TO PORTS. MEANWHILE, THEY CONTINUED TO TRACK AND REPORT ON THE U.S. VESSELS IN THE GULF OF TONKIN.

B. THE SECOND ATTACK, 04 AUGUST

1. 040927Z: INTERCEPTED DRV NAVAL MESSAGES INDICATED FURTHER MILITARY ACTIONS AGAINST THE U.S. MIGHT BE CARRIED OUT. (USN-414T DTG 041140Z AUG).

2. AT 041140Z USM-626J REPORTED EVIDENCE OF "IMMINENT PLANS OF DRV NAVAL ACTION POSSIBLY AGAINST DESOTO MISSION."

(2/G11/VHN/R11-64, 041140Z AUG).

3. AT 041400Z, THE TICONDEROGA REPORTED THAT THE MADDOX OPENED FIRE AGAINST A PT BOAT.

PART THREE: DISPOSITION OF DRV NAVAL FORCES AS EVIDENCED IN SIGINT ON 17 SEPTEMBER

A STUDY OF ALL AVAILABLE MESSAGES INDICATES THE FOLLOWING DISPOSITION OF DRV NAVAL FORCES ON THE DAY (17 SEPTEMBER 1964) PRECEDING THE 18 SEPTEMBER ENGAGEMENT IN THE GULF OF TONKIN.

SOUTHERN FLEET:

AT 170955Z SUB-UNIT 7 WAS TO ANCHOR AT XUYAN DUONG (18-44/105-44). SUB-UNIT 7 IS TENTATIVELY HELD BY NSA AS CONSISTING OF UNIDENTIFIED TYPE VESSELS T253, T255, T257.

DURING 17 SEPTEMBER SUB-UNIT 6 WAS NOTED ON SOUTHERN FLEET COMMUNICATIONS AND HENCE PRESUMED TO BE IN SOUTHERN FLEET WATERS. SUB-UNIT 6 IS TENTATIVELY HELD TO CONSIST OF UNIDENTIFIED TYPE VESSELS T377 AND PROBABLY TWO OTHERS WHOSE VESSEL NUMBERS ARE UNKNOWN.

ALTHOUGH THE VESSELS COMPRISING SUB-UNITS 6 AND 7 ARE UNIDENTIFIED AS TO TYPE IT IS THOUGHT THAT THEY ARE PROBABLY SWATOWS.

NORTHERN FLEET:

THE FOLLOWING UNITS/VESSELS WERE OBSERVED ACTIVE ON DRV NORTHERN FLEET COMMUNICATIONS ON 17 SEPTEMBER AND HENCE THOUGHT TO BE IN NORTHERN FLEET WATERS:

AFTER SEVERAL ROUNDS APPEARED DIRECTLY ON TARGET, RANGED CEASED CLOSING AND TARGET DISAPPEARED FROM SCOPE. CEASED FIRING 2023.

2. TRACK SEVERAL TARGETS AT APPROXIMATELY 13,000 YARDS INTO 11,000 YARDS. AT THIS TIME TARGETS APPEARED TO SPLIT, ONE CLOSING, ONE STAYING AT APPROXIMATELY 11,000 YARDS. TRACK CLOSING TARGET INTO APPROXIMATELY 5,000 YARDS AT WHICH TIME TARGET OPENED IN RANGE, WHILE SECOND TARGET CLOSED AT HIGH RATE OF SPEED. THIS SEEMED TO BE THEIR DESIGNED METHOD OF ATTACK. EXPERIENCED DIFFICULTY IN TRACKING CLOSING TARGETS BECAUSE OF SMALL RADAR RETURN AND JAMMING. JAMMING WAS IN THE FORM OF RADAR INTERFERENCE, TO WIT: SINE WAVE EFFECTS ON B AND SWEEPS, SPIKE EFFECTS AND BLOT OUT EFFECTS ON A AND R SWEEP. ALL INCOMING TARGETS WERE TRACKED AND EITHER LOCKED ON GAITED. THROUGHOUT ENGAGEMENT ENCOUNTERED BLOT OUT EFFECTS ON ALL SWEEPS SIMILAR TO WEATHER OR JAMMING. UPON MANY OCCASIONS TARGETS SEEMED TO HEAD FOR THESE AREAS OF COVER. CHANGING FREQUENCIES AND PULSE REPETITION RATE ELIMINATED MOST OF THE ELECTRONIC EFFECTS (JAMMING). TARGETS WERE TAKEN UNDER FIRE

THE TRANSMISSION OF THREE MESSAGES DURING A TWO-HOUR PERIOD VIS-A-VIS AN OCCASIONAL MAXIMUM OF TWO FOR AN ENTIRE DAY CONTINUES TO BE INEXPLICABLE. A TRANSLATION ACCOMPLISHED AT NSA OF THE MESSAGE ON WHICH THE USN-27 CRITIC REPORT WAS BASED INDICATES THAT THE MESSAGE READS AS FOLLOWS: QUOTE FROM: (POSSIBLY) BEN THUY TO T253 AND T259 AND SUB UNIT (ONE GROUP UNRECOVERED). (ONE GROUP UNRECOVERED) ALERT CONDITION SITUATION ONE. BY DAY (POSSIBLY DISPERSE FOR) AIR DEFENSE. BY NIGHT STRIKE THE RAIDERS. (SIGHED) TRACH UNQUOTE. COMMENT: BEN THUY IS THE LOCATION OF THE HEADQUARTERS OF THE SOUTHERN FLEET. THE VESSELS T253 AND T259 ARE TENTATIVELY THOUGHT TO BE MOTOR TORPEDO BOATS. THE SIZE OF THE SUB-UNIT, IN TERMS OF NUMBER OF VESSELS, IS UNKNOWN. IN LIGHT OF CONCERN PREVIOUSLY EXPRESSED BY NORTH VIETNAMESE NAVAL AUTHORITIES OVER GUARDING AGAINST THE SOUTH VIETNAMESE RAIDERS THE POSSIBILITY EXISTS THAT THEIR CONCERN AS EXPRESSED IN THIS MESSAGE IS AS APT TO BE FOR SOUTH VIETNAMESE VESSELS AS IT IS FOR THE U.S. DESTROYERS.
